1 Uvod

1.1 Korišćene tehnologije

- HTML
- CSS
- Javascript / Jquery
- AJAX
- XML
- Bootstrap

1.2 Opis funkcionalnosti

- Dinamičko učitavanje header-a i footer-a.
- Dohvatanje podataka iz JSON file-ova pomoću AJAX-a.
- Dinamičko učitavanje proizvoda, kategorija i brendova.
- Paginacija, filtriranje, sortiranje i pretraga proizvoda.
- Dodavanje proizvoda u omiljene.
- Validacija unešenih podataka na contact stranici.
- Dodavanje i brisanje proizvoda iz korpe.
- Dinamičko ispisivanje proizvoda u korpi.

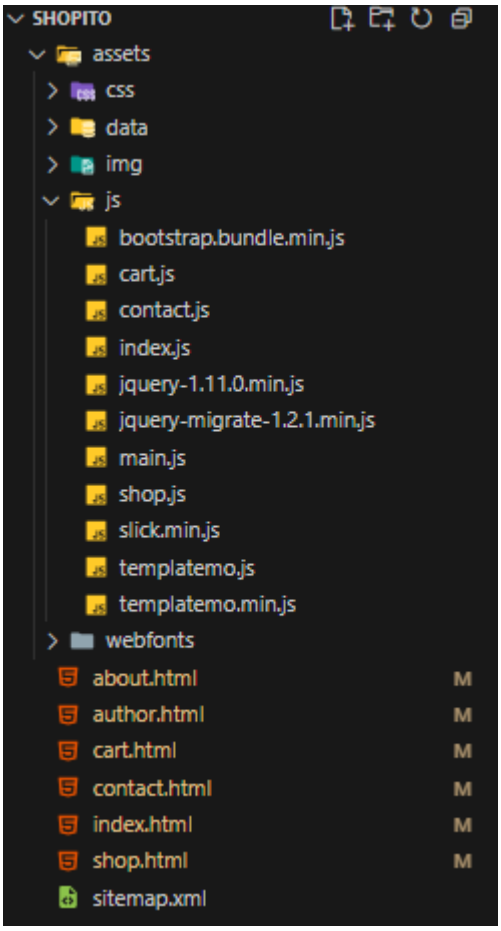
1.3 Template

Za template je korišćen:

https://templatemo.com/tm-559-zay-shop

2 Struktura projekta

Javascript je podeljen na više fajlova kako svaka stranica sajta ne bi učitavala bespotreban sadržaj. Takodje, u kodovima se ne nalaze fajlovi koji su se nalazili u template-u, jer ih autor nije modifikovao.

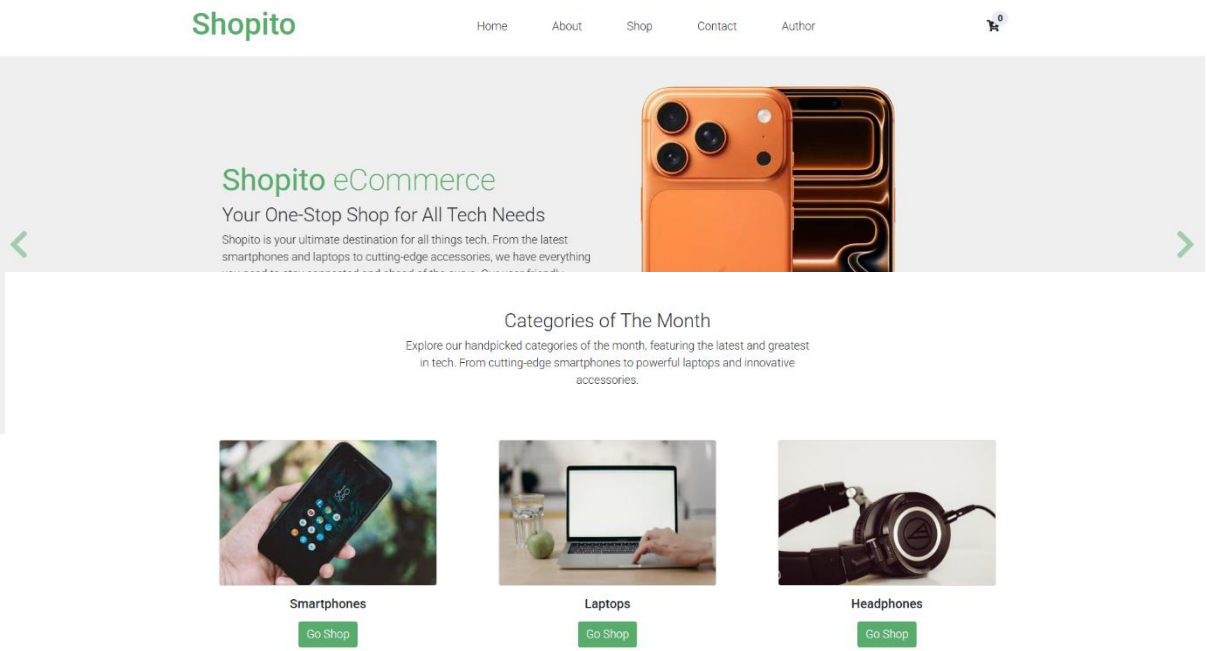


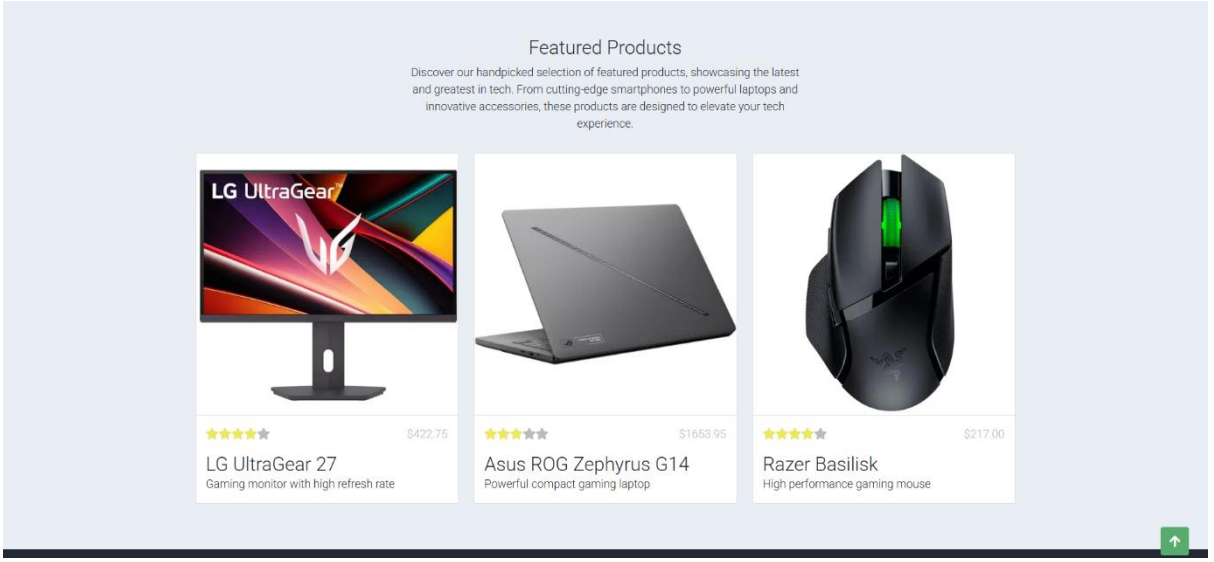
2.1 Opis stranica

Na svakoj stranici se dinamički učitavaju header, footer i korpa sa brojem proizvoda u njoj. Takodje, na svakoj stranici nakon skrolovanja, prikazuje se “back to top” dugme u donjem desnom uglu ekrana.

2.1.1 index.html

Pri inicijalnom ulasku na sajt, korisnicima se prikazuje početna stranica na kojoj se nalazi carousel sa tri slajda. Nakon toga, sekcije “categories of the month” i “featured products” dinamički se učitavaju i prikazuju prve tri kategorije, odnosno tri istaknuta proizvoda.





Featured Products
Discover our handpicked selection of featured products, showcasing the latest and greatest in tech. From cutting-edge smartphones to powerful laptops and innovative accessories, these products are designed to elevate your tech experience.
LG UltraGear
$422.75
LG UltraGear 27
Gaming monitor with high refresh rate
$1653.95
Asus ROG Zephyrus G14
Powerful compact gaming laptop
$217.00
Razer Basilisk
High performance gaming mouse

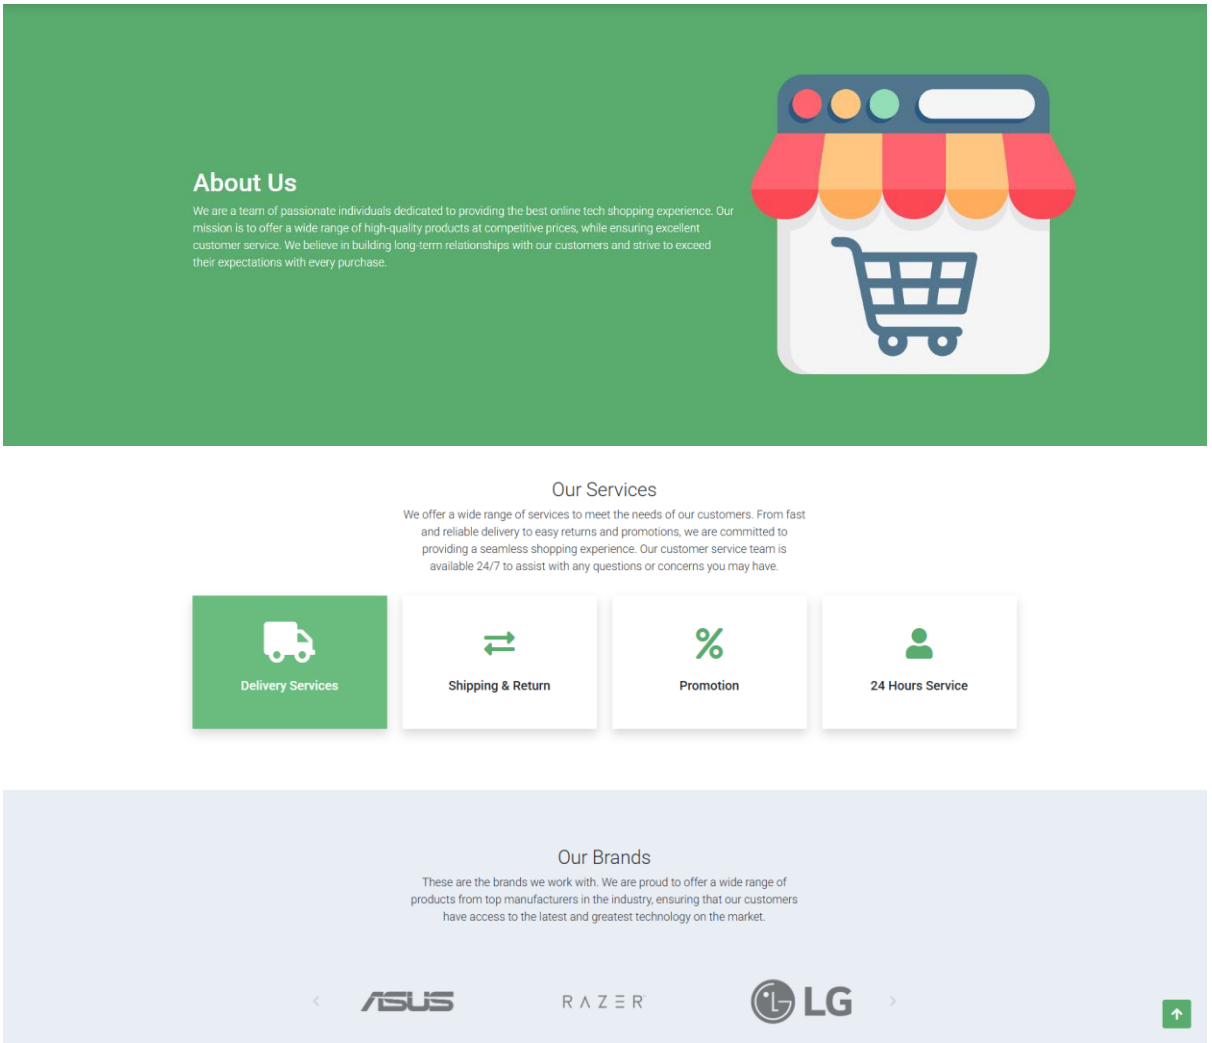
2.1.2 about.html

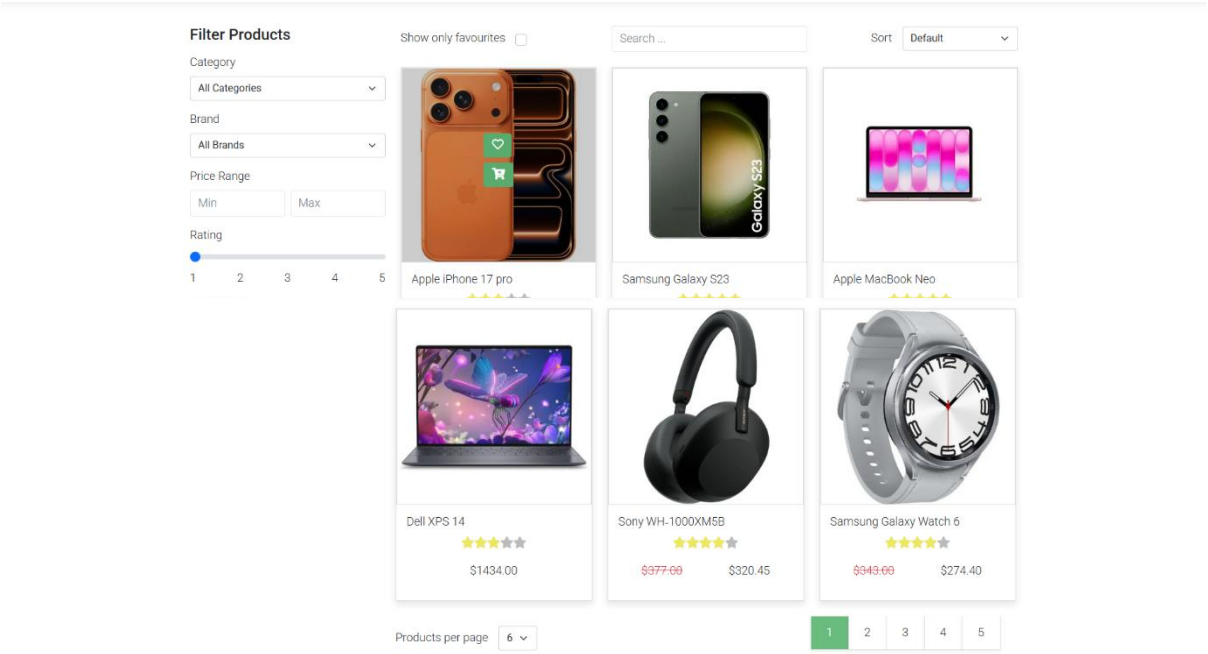
Na ovoj stranici se prikazuje kratak opis kompanije, servisa koje pruža i brendova u asortimanu, kako bi sajt izgledao što realističnije.



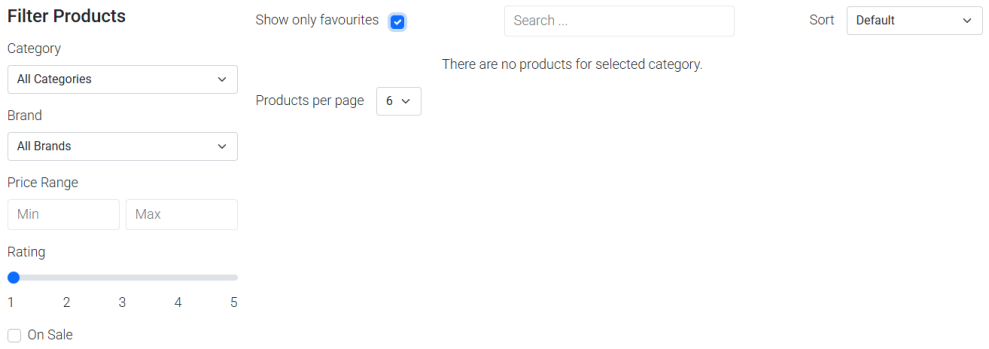
2.1.3 shop.html

Ovde se dinamički prikazuju proizvodi. U sidebar-u se nalaze opcije za filtriranje proizvoda, a iznad sekcije za prikaz proizvoda nalazi se checkbox za prikaz omiljenih proizvoda, search bar za pretragu proizvoda i select meni za sortiranje proizvoda. Ispod

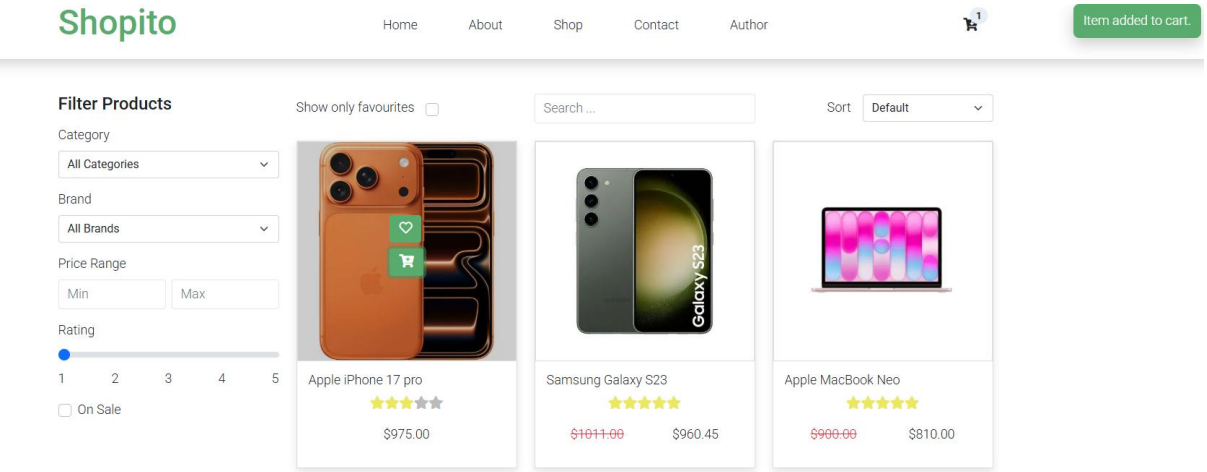
sekcije za prikaz proizvoda nalazi se paginacija i select meni za odabir broja proizvoda za prikaz na trenutnoj strani. Sve opcije su povezane i uskladjene.



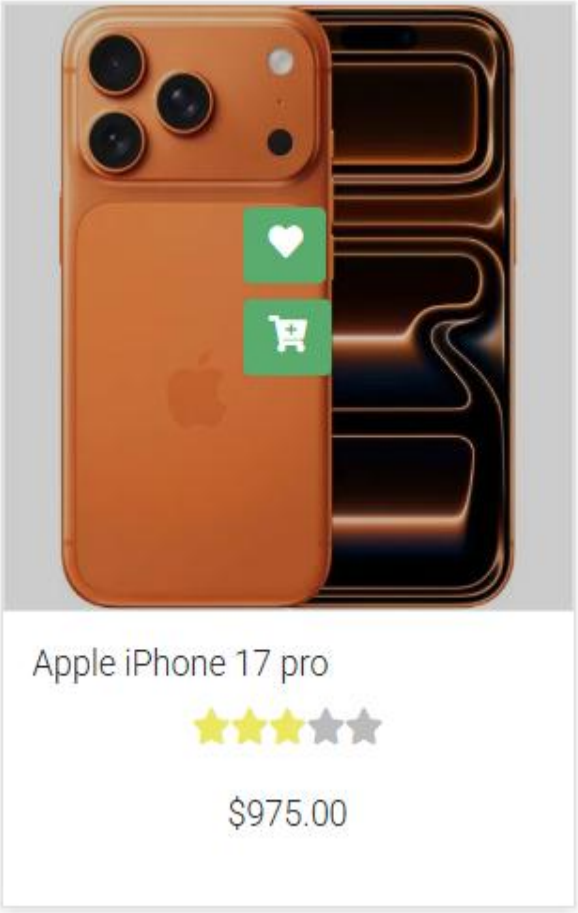
Ukoliko ne postoje proizvodi za izabranu kategoriju, ispisuje se poruka.

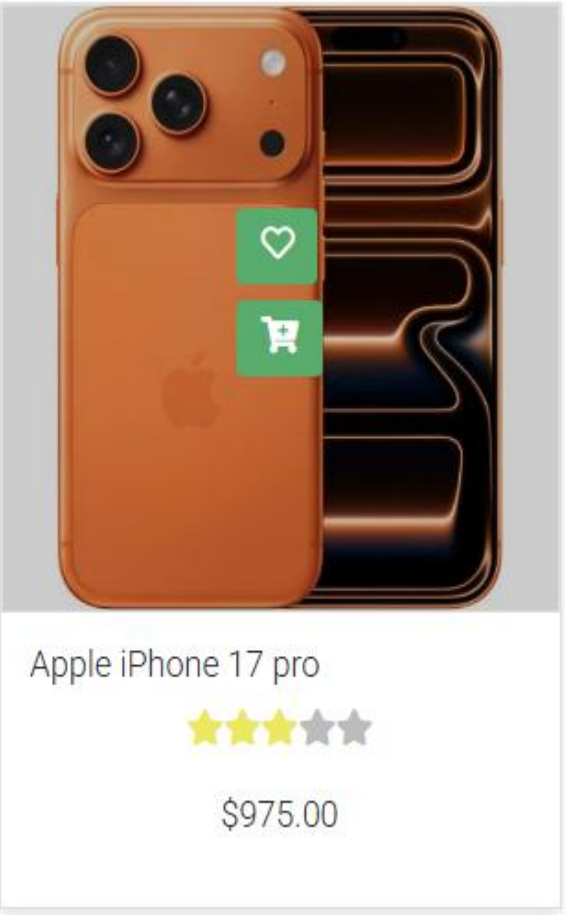


Nakon dodavanja proizvoda u korpu, ispisuje se poruka.



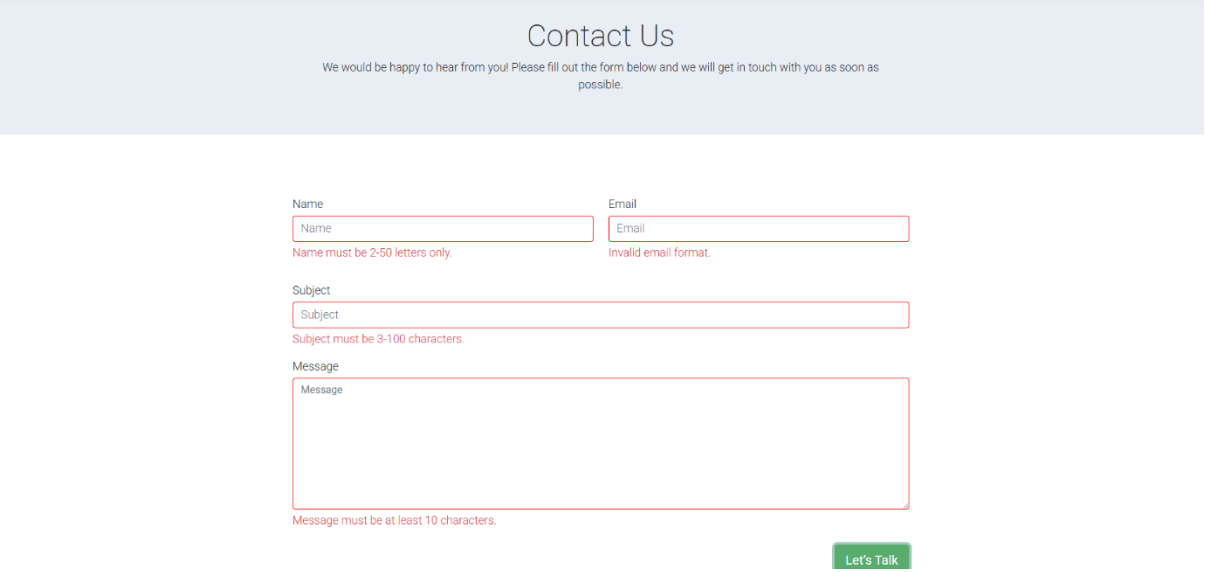
Nakon klika na ikonicu srce, dodaje se proizvod u omiljene i popunjava se ikonica srce kao indikator dodatog.



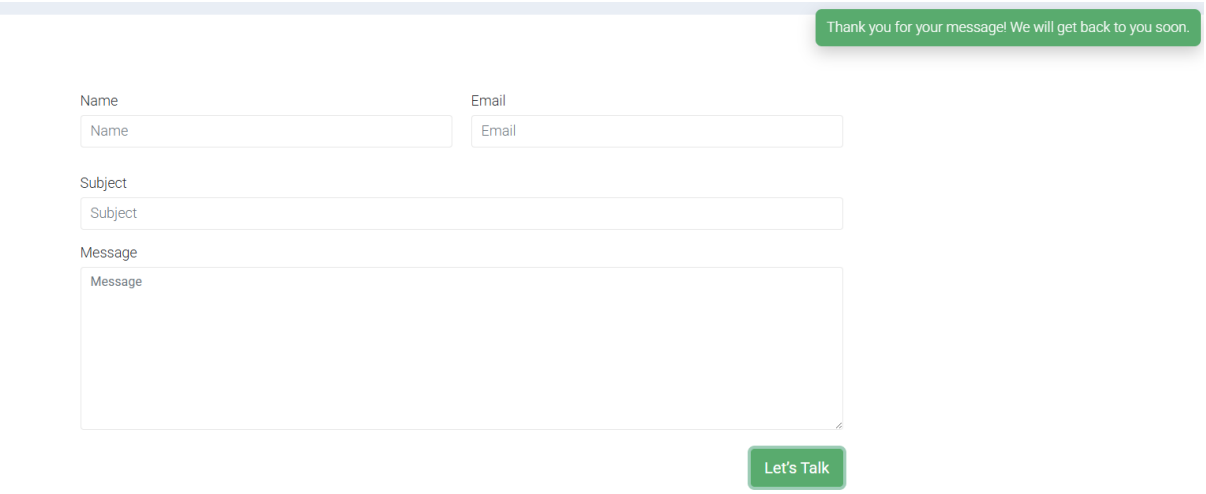


2.1.4 contact.html

Na contact stranici se nalazi forma za kontaktiranje kompanije. Uneti podaci se proveravaju pomoću regex-a.

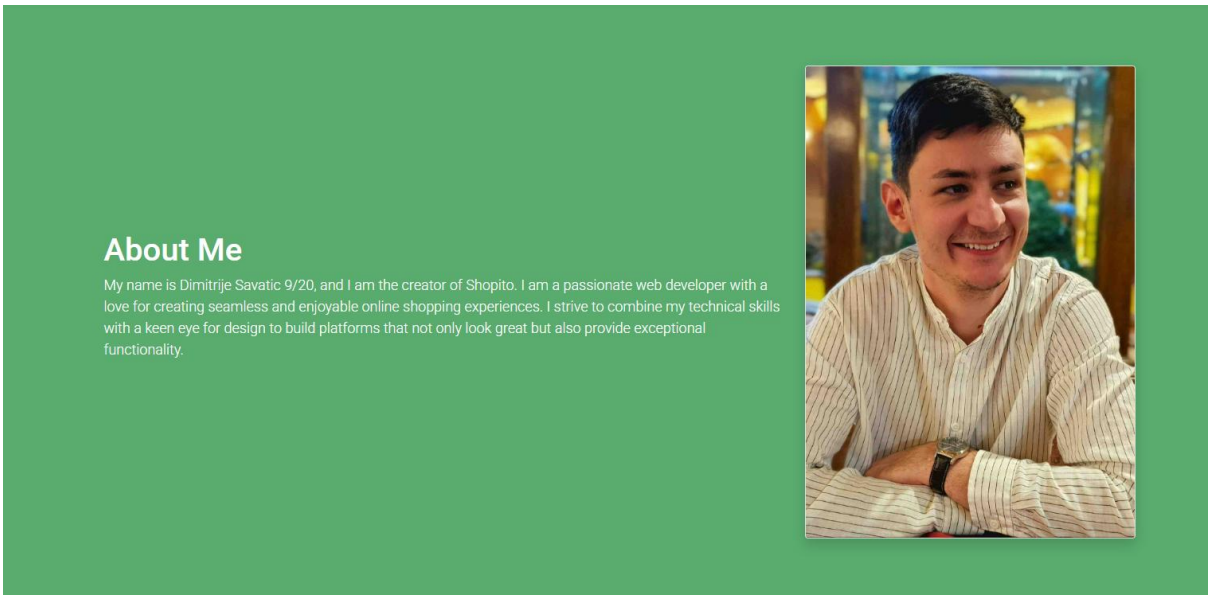


Nakon validnog unosa ipisuje se poruka u gornjem desnom uglu stranice.



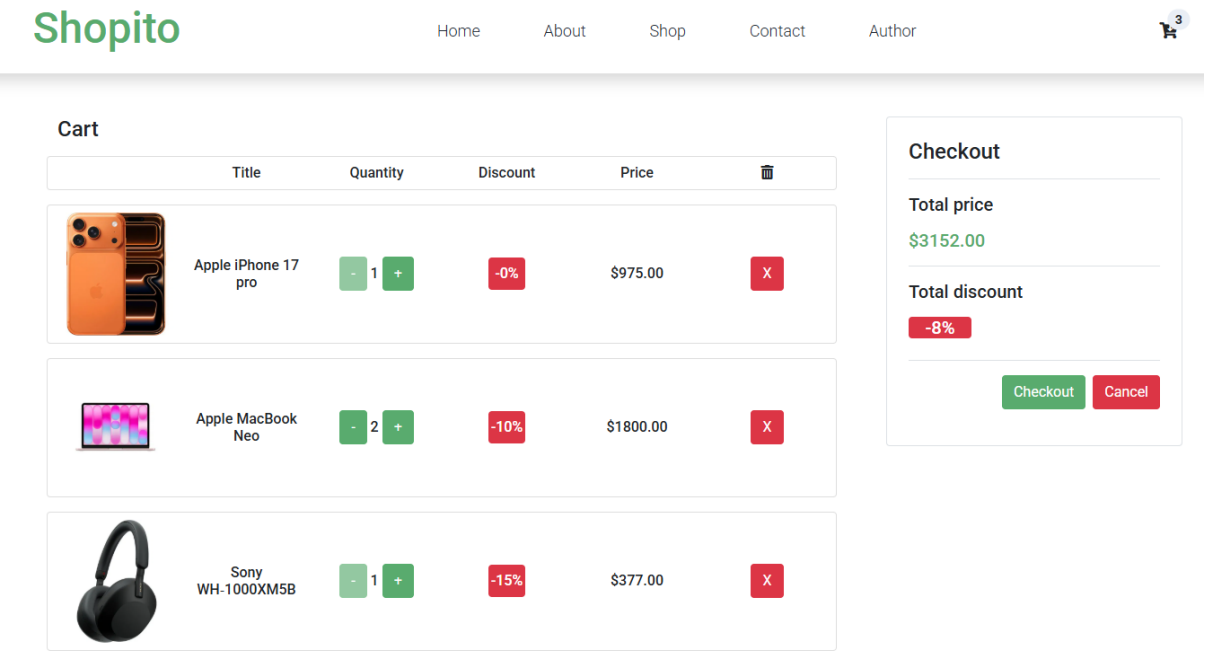
2.1.5 author.html

Na ovoj stranici se nalaze podaci o autoru sajta.



2.1.6 cart.html

Na ovoj stranici se dinamički ispisuju proizvodi koje je korisnik izabrao. Korisnik može izbrisati sve proizvode iz korpe odjednom klikom na dugme cancel ili ih može brisati jedan po jedan. Moze povećavati ili smanjivati njihovu količinu. U checkout sekciji se dinamički obračunavaju ukupna cena i ukupan popust. Klikom na dugme Checkout prazni se korpa. Za svako brisanje pojedinačnog proizvoda, cele korpe ili potvrde kupovine ispisuje se poruka u gornjem desnom uglu stranice.



3 Kodovi

3.1 HTML

3.1.1 index.html
